

Trim Selection for Flexiteek & Isiteek

All Trims are delivered un-sanded

Trim Sections, U- Section (U/1209 & U/1210)

The U-shaped edging sections come in two sizes; 14mm and 17mm (U/1209 -14mm & U/1210 - 17mm). They can be used for more solid edgings or trims where a wood effect surround is required.

Trim Sections, T- Section (T/873)

The T-sections are 19mm and 25mm wide and can be used for trimming. (T/873/19 & T/873/25)

Trim Sections, Nosing Section (N/1119)

The 40mm x 20mm nosing section can be used as an edging product for steps or furniture. It comes in a 10m coil

Trim Sections, Toe Rail (T/1186)

The 34 x 40mm toe rail section is made in standard 2.4m lengths (weight ca. 1.2kg per metre). A 10mm diameter plug section (T/1207) is available to fill in the screw holes after installation.

Trim Sections, Rubbing Rail (R/1148)

This 65mm x 20mm product is available in a 10m coil.

As well as a rubbing rail, this versatile section can be used for other applications.
