

FLEXITEEK

Decking Colour Options

ABOUT US

Flexiteek has been creating beautifully engineered synthetic decking and marine products since 2000.

In 2024, our third generation product establishes a new standard in synthetic decking. It's made using a bio-attributed PVC with enhanced heat performance and all the usual leading benefits you've come to expect from Flexiteek.

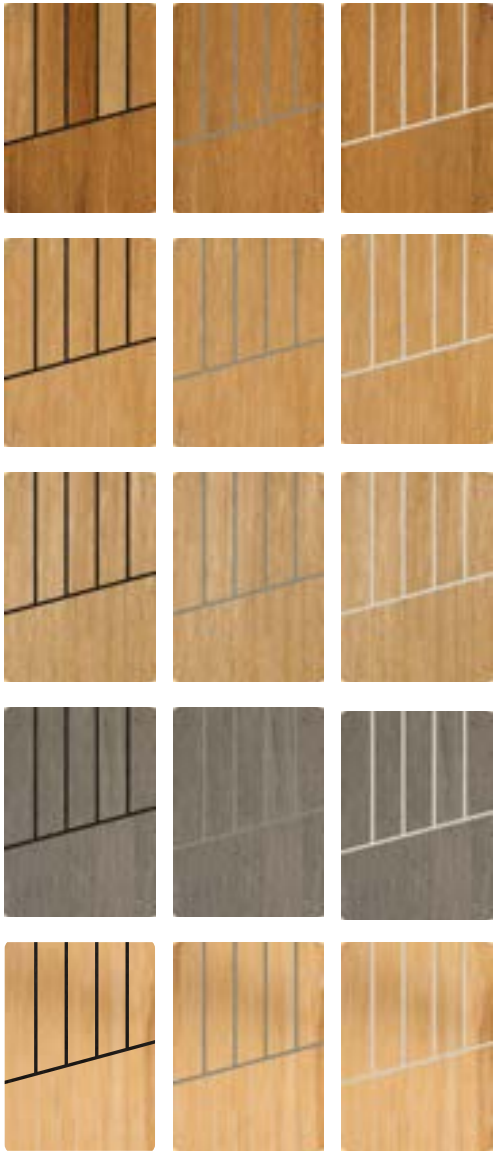

COLOUR COMBINATIONS

Over 15 colour combinations to choose from.

Create the decking look you want with one of our five colour options, including our new Ash shade, offering a lighter choice.

All our colours are available in up to three caulking options, traditional black, contemporary grey or modern white, to help you customise your new deck.

FLEXITEEK

TEAK

The original Flexiteek colour option still remains our biggest seller, and for a good reason. Its classic good looks remain popular worldwide.

DECK DESIGNER

Use our deck designer to create the perfect deck for your boat.

REQUEST A SAMPLE

Individual samples : [flexiteek.com/request-a-sample/](https://www.flexiteek.com/request-a-sample/)
Sample pack : [flexiteek.com/request-a-sample-pack/](https://www.flexiteek.com/request-a-sample-pack/)

Please Note : Flexiteek is designed to replicate the graining found on natural timber, therefore, this effect will differ between planks. This non-uniformity is intentional and an inherent feature of the product.

SCRUBBED

Designed to mimic freshly scrubbed teak, this colour has a lovely warm tone with a deep variation.

BLEACHED

Bleached has a slightly lighter tone compared to Scrubbed and beautifully mimics an aging deck.

DECK DESIGNER

Please Note : Flexiteek is designed to replicate the graining found on natural timber, therefore, this effect will differ between planks. This non-uniformity is intentional and an inherent feature of the product.

WEATHERED

A subtle variation, our Weathered perfectly represents a teak deck seasoned by the weather.

FADED

Prefer your teak as it starts to weather? Then a Faded deck will be the answer. A perfect mix between Bleached and Weathered.

to replicate the graining found
on natural timber, therefore, this
effect will differ between planks.
This non-uniformity is intentional
and an inherent feature of the
product.

VINTAGE

If you leave your teak to the elements, you'll appreciate the darker grey of our Vintage colour.

CHARCOAL

Not quite as dark as Carbon, Charcoal gives plenty of scope for something a little different.

WALNUT

Perfectly balanced variation gives Walnut the look and feel of the American Walnut it was designed to mimic.

MONOCHROME COLOURS

The modern tones of our three monochrome colours provide a different look for your boat. Available in up to two caulking colours.

Please Note : Flexiteek is designed to replicate the graining found on natural timber, therefore, this effect will differ between planks. This non-uniformity is intentional and an inherent feature of the product.

CARBON

Contemporary, sharp and modern, Carbon provides this and more for a truly striking appearance.

GREY

Grey decking is a contemporary option, designed for a non-wood appearance.

TRITONE - TEAK

Providing you a timeless look of natural teak with a modern twist. Featuring three subtle tone variations, it captures the classic charm of traditional decking.

TRITONE - SCRUBBED

Providing a colour which is warm, natural, and full of depth. Its deep variation in tone and rich honey hues give your deck an authentic, lived-in charm.

TRITONE - ASH

This light honey-toned decking option brings a bright, vibrant look that stands apart from classic teak. It's modern, clean, and full of character.

Beautifully engineered synthetic decking
and marine products.
