

Addition to "GENERAL CONDITIONS OF DELIVERY FOR THE PLASTICS INDUSTRY". Adopted in 1994 by the Swedish Plastics Industry Association and the Plastics and Chemical Federation.

In addition to what is written in "Liability for defects" the following is valid:

Material Guarantee:

The vendor guarantees to the purchaser the Flexiteek material for the first 5 (five) years from the date of purchase. During the guarantee period the product will be free from defects in material and workmanship and will not split, crack, peel or rot. This vendor liability covers only material changes which arise under the working conditions assumed in the contract, and that the material has not been exposed to aggressive chemicals, acid washes or extreme heat. Any guarantees related to the installation of Flexiteek will be carried by the installer and is not part of the material guarantee.

The ground surface of the material can become slightly darker over time, but that can be corrected by light sanding in the strip direction.

Do not use a rotating sander!

Except from this material guarantee, the GENERAL CONDITIONS OF DELIVERY FOR THE PLASTICS INDUSTRY are valid.
